CS 3010: Android Development

Assignment: APIs

Requirements

- Create the PhotoGallery application to load image data from the web API provided by Flickr, as described in Chapter 23.
- Using a RecyclerView and its related classes, display the images returned by the API as a grid layout.
- Use the open-source library Picasso to load the remote images. Refer to the documentation here and here.
- Or, alternatively, follow the process described in Chapter 24.

Resources

- Refer to the Android developer documentation as needed when completing your assignment.

Submission

- Show your completed assignment to the instructor during class or office hours to receive credit.
