Requirements

- Create the PhotoGallery application to load image data from the web API provided by Flickr, as described in Chapter 25.
- Using a RecyclerView and its related classes, display the images returned by the API as a grid layout.
- Use the open-source library Picasso to load the remote images. Refer to the documentation here.
  - Or, alternatively, follow the process described in Chapter 26.

Resources

- Refer to the Android developer documentation as needed when completing your assignment.

Submission

1. Show your completed assignment to the instructor during class or office hours to receive credit.
2. Submit your project using Git and GitHub. Start by creating a repo for this assignment here.
