CS 3010: Android Development
 Assignment: CriminalIntent

Requirements

Part One

- Use Fragments to create a foundation for the CriminalIntent application, as described in Chapter 7.

Part Two

- Continue implementing the user interface for the CriminalIntent application, as described in Chapter 8.

Part Three

- Continue the CriminalIntent application by adding a list of crimes that connects each crime to its details, as described in Chapters 9 and 10.

Resources

- Refer to the Android developer documentation as needed when completing your assignment.

Submission

1. Show your completed assignment to the instructor during class or office hours to receive credit.
2. Submit your project using Git and GitHub. Start by creating a repo for this assignment here.
