CS 3010: Android Application Development
Assignment: GeoQuiz

Requirements

- Create a simple Android application, GeoQuiz, as described in Chapters 1-6.

Resources

- Refer to the Android developer documentation as needed when completing your assignment.

Submission

1. Submit your project using Git and GitHub. Start by creating a repo for this assignment [here].
2. Submit your assigned peer review by completing the rubric in Canvas while reviewing your peer’s application in person.
