CS 3500: Application Development

Assignment: Windows Practice

Requirements

- Create a basic Windows application that allows the user to view a list of records on one page, and display the details for each record on a separate page.
- Follow this tutorial to guide your approach and implementation: My First WPF Desktop Application

Resources

- Refer to the WPF developer documentation as needed when completing your assignment.

Submission

- Show your completed assignment to the instructor during class or office hours to receive credit.
