Changes to the schedule will be announced in class.

**Resources**

- Syllabus
- Examples from class
- Setting up `ssh` to connect to `cs3520.cs.dixie.edu` without typing a password:
  - Written instructions
  - Screencast demo (note, the written instructions are slightly simpler—open that page and follow along while you watch the screencast).

**Languages**

- Standard ML slides
- A half-hour to learn Rust
- Rust via its Core Values
- Language shootout size vs speed

**Assignments**

See the Canvas listings for assignments and due dates. All homework is submitted using CodeGrinder unless otherwise noted.

**Final project languages**

In place of a final exam, each student will learn one additional language, write some code in that language, and present it to the rest of the class. Here are a few potential choices:

- Factor
- Smalltalk
- Haskell
- OCaml or F#
- Clojure
- Common Lisp
- Perl
- Erlang or Elixir
- J
- Tcl
