CS 4300: Artificial Intelligence

Assignment: Jetan - Evaluation Function

Modify your Jetan agent by adding at least 3 different evaluation functions. Compare the performance of each evaluation function, and choose the best one as the default.

See [cs4300-code-ai-agents/prog/Jetan/README.md](cs4300-code-ai-agents/prog/Jetan/README.md) for more information.

Set the contents of [cs4300-code-ai-agents/prog/Jetan/jetan_agent_arguments.txt](cs4300-code-ai-agents/prog/Jetan/jetan_agent_arguments.txt) to be the command line arguments needed to run your best Jetan agent.

**Report**

The report for this assignment should explain the three evaluation functions, and the agent’s performance with each of the functions.

**Grading**

Performance measure will be given here soon.

**Passoff**

Submit your source code by committing and pushing the repository. Submit your report to Canvas.
