**Career Video Group Project**

**Purpose**

Students will understand the personal value of a college education in their intellectual development, degree attainment, career success, and quality of life. (Fulfills IV.1)

Students will understand what degree options are available at DSC and other Utah schools and what careers these may lead to, and some strategies for choosing an educational and career path. (Fulfills IV.3)

Student will have practice working together as a team.

**Requirements**

Students will be put into groups. They are to create a 2.5min – 4min video about the career they have been assigned. Then this video is to be presented to the class. Part of the grade for this assignment comes from evaluating how well a student works in a team.

1. Get team names and contact information

2. Assign team member assignments
   - Obtain camcorder, video camera, cell phone, etc. (Can check out on 3rd floor or use your own)
   - Get the information needed for career
     - Job Title
     - Average Starting Wage in St. George or Utah
     - Job Outlook
     - Preparation (meaning what sort of training, degrees, skills, etc. are required for this job)

3. Record the video – inasmuch as possible the video should have all team members in it.

4. Edit the video

5. Present the video in class on the day assigned.

**Rubric**

1 point for each of the above items.

**Submission**

Submit to Canvas (or possibly google docs) the name and contact information for your team, who was assigned what job, and dates and times that you met out of class to complete the assignment. The document you submit should be the same as what the other members on your team submits.
