Changes to octfan.com are pending. They’ll take effect within the next 48 hours.

Synthetic records allow you to add common features, such as domain forwarding or G Suite, to your domain in one step. Each synthetic record is an automatically generated collection of resource records related to a specific feature. Learn more.

**Subdomain forwarded**: octfan.com
- Temporary redirect (302)
- Permanent redirect (301)
- 301 do not forward path
- 301 disable SSL
- 301 enable SSL

**Custom resource records**
Resource records define how your domain behaves. Common uses include pointing your domain at your web server or configuring email delivery for your domain. Learn more.

Name servers

Name servers store the configuration of your domain as a collection of resource records. If you use the Google Domains name servers, you can use the rest of this page to configure your domain. Alternatively, you can enter up to 10 custom name servers here and configure your domain with your third-party DNS provider. Learn more

- Use the Google Domains name servers
- Use custom name servers

Name server

Name servers:

- ns1.whathost.com
- ns2.whathost.com
- D81

DNSSEC

Domain Name System Security Extensions (DNSSEC) protect your domain from attacks such as DNS cache poisoning attacks and DNS spoofing. Your DNS provider can provide you with the values you need to activate DNSSEC.
