**Docker 2**

**Description**

By the end of this project you have:

- completed this tutorial. It is all of chapter 5.

Errata: Don’t use uWSGI==2.0.8, just use uWSGI.

- On the latter half of the project, when asked to use docker-compose, I had better luck installing the non-apt version as instructed here

**To Pass off**

Prove that you have done it. We will pass this off in class.
