IT 4500 : Day 8

Overview

Dr Joe Francom

Spring 2015

Review

What else did you find interesting from Section 6?

Activity 1

In groups of 2 or 3, find examples of the following that you can demonstrate to the class. You will have 15-20 minutes to find, install, figure out how they work then you can show us what you learned:

- Firewalls (linux or windows)
- Proxy servers
- HTTP content filters (windows site restrictions)
- VPN solutions (how about logmein or other related?)
- Virus blockers
- Antiphishing software
- Related technologies (K9 browser, opendns)
