SUMMER COURSES

We are offering the following courses this summer:

DES 1300  CS 1400
DES 2500  IT 1100
DES 2600  WEB 1400

Registration opens March 21-24.
CODE SCHOOL & DESIGN SCHOOL // SUMMER 2016

CODE SCHOOL
Code School is an intensive course for students who are interested in jumpstarting their programming and web careers. Interaction with the local industry is facilitated, and many participants are placed in internships and jobs within the software and web industries upon completing the course.
Participants will learn modern web technologies including advanced HTML5 and CSS, JavaScript, databases, frameworks, and client-side and server-side application development, applied to real-world projects in a concentrated, quick-paced format.

> camps.dixie.edu/codeschool

Applications are open until April 22.

DESIGN SCHOOL
Design School is an intensive course for students who are interested in jumpstarting their UI/UX design careers. Interaction with the local industry is facilitated, giving participants a great opportunity to network and gain internships.
Participants learn the basics of designing with the Adobe software suite, and the fundamental concepts of user-centered design, including the design of user flows, prototyping, wireframing, and creating mockups, as part of the design process for creating mobile and web applications.
